

# HELPING YOU MAKE SENSE OF TECHNOLOGY

Celebrating 20 years in business

[www.diskychicks.com](http://www.diskychicks.com)

Technology has become a big part of most people's lives, but for those who are not "tech-saavy", it can be overwhelming.

We offer classes that will help teach you the basics so that even if you aren't interested in becoming an expert, you'll be able to do the things you need to do.

We offer individual sessions as well. If you just need to set up e-mail on your new iPhone, or create a Skype account, we can show you how without all the techno-babble. We'll present the information in a way that makes sense to you.

Visit our website at **[www.diskychicks.com](http://www.diskychicks.com)** for information on class dates or to book an individual session. Both are offered at our location in St. Vital, or at your 55+ building.
